### NSSP Swap Shop:

### An NSSP Tradition

This activity calls for every delegate to bring as many souvenir items from their home school and state as they want to trade/swap with another delegate from other states. It is a lot of fun and can help you get gift items for friends and family. Popular items are T- shirts, sweatshirts, candy, necklaces, and food products. Use your creativity in finding things you think others would want to have. The bargaining can be a challenge. Enjoy the swap meet experience with delegates and score some great deals.

The **National Student Safety Program (NSSP)** exists for youth to develop leadership, positive relationships, and programs that help to reduce death and injury on our nation's highways through traffic safety education. **NSSP celebrates 67 proud years** of providing youth with an annual opportunity to share teen developed programs. We invite you to be a part of this exciting conference.

Meet teens that have developed great programs and projects that are working in their communities. Feel their excitement and get engaged—teach, learn, and share projects. Get recognized by nominating your group, project and/or outstanding individuals in the **NSSP Awards Program** and **win awards for your outstanding efforts. Keep doing the right thing** by helping peers make the right choices and educating others with your knowledge.

Value and challenge yourself—**push your potential to the limit.** The conference will motivate you to create, develop and implement prevention programs. Make new friends and **build your own network** of resources. **Exercise and strengthen your leadership skills.**

The conference engages active participation in fun and exciting ways. Hear keynote speakers, experts, and student presenters. Enjoy small group discussions, icebreakers, and energizers. **Enjoy the social events, awards, and celebrations.** Make new friends and be inspired!

### ***ADTSEA and NSSP***

**Established** by the National Education Association in **1956, NSSP has proven to be successful to thousands of teen leaders** and helped to empower them to make changes in their schools and communities. These thousands of teen leaders have touched millions of lives over the decades. Today, NSSP is housed as the youth program of the **American Driver and Traffic Safety Education Association (ADTSEA), a non-profit organization.** For more information, go to [www.adtsea.org](http://www.adtsea.org).
